*October 15-17, 2010*  
Lewiston, Maine

*Jointly sponsored by:*

Bates College

National Center for Emerging and Zoonotic Infectious Diseases,  
Centers for Disease Control & Prevention

Central Maine Medical Family

St. Mary's Health System

The African Refugee Health Conference will present best practices in immigrant health care in the medical, nursing, public health, behavioral/mental health and administrative fields, from nationally and internationally recognized experts in these fields

#### Mission:

- Educate health providers and administrators in best practices for refugee health care, with a focus on African refugees.
- Bring together experts on African refugee health from North America and Africa including domestic CDC and African field office CDC.
- Promote professional leadership among refugees and immigrants.

**Event starts on Friday Evening, October 15 at 6:30 PM through Sunday October 17 12:30 PM**

#### Topics of Interest:

- **Globally Mobile Populations**
- **Health Care Equity**
- **Hepatitis B in immigrants**
- **Malaria from Africa**
- **Intestinal Parasites and Eosinophilia**
- **Chronic Disease in Immigrants**
- **Medical Screening of Refugees**
- **Medical Screening for HIV**
- **Depression and PTSD**
- **Refugee Children's Mental Health**
- **Health Care Systems and Refugees**

#### Selection of Speakers:

**Martin Cetron, MD**, is the Director for the Division of Global Migration and Quarantine (DGMQ) at the U.S. Centers for Disease Control and Prevention (CDC) and an internationally recognized expert in global migration and health.

**Patricia F. Walker, MD, DTM&H** is the Medical Director at HealthPartners Center for International Health in St. Paul, Minnesota and Associate Medical Director of the Global Health Pathway at the University of Minnesota. She is internationally known for her expertise in refugee and immigrant health care.

**William M. Stauffer, MD, DTM&H** is a technical advisor and leads the efforts at the CDC in the development of the Refugee Domestic Screening Guidelines. He is the Associate Medical Director for an 8 week ASTMH-accredited Global Health Course that is taught by the University of Minnesota.

**Abdirahman Mahamud, MD** is with the Division of Viral Disease at the CDC. He was most recently the medical officer at the Dadaab refugee camp in Kenya as part of the Refugee Health team for the CDC. His work included surveillance activities as well as outbreak investigation and management for camps in Kenya.

**Heidi Ellis, PhD**, is a Clinical Psychologist and Assistant Professor of Psychiatry at Children's Hospital Boston/Harvard Medical School, and director of the Children's Hospital Center for Refugee Trauma and Resilience. Her expertise lies in developing interventions for traumatized youth.

**Richard F. Mollica, MD**, Harvard Medical School Professor and Director of the Harvard Program in Refugee Trauma, writes on issues pertaining to global mental health, social healing, personal healing, human rights, and the obstacles and pathways to peace
