(Join IMIA and then register for a total of \$150!)

Payments must be postmarked by May 31, 2011

Registration will close June 10, 2011 or when 50 are approved

Learning Objectives:

- Explain the approach that a practitioner uses to make a diagnosis & decide on a patient's treatment.
- Identify basic signs and symptoms.
- Learn and recognize root words, prefixes, and suffixes used in medical terminology.
- Identify medical specialties and sub specialties
- Explain the structures and functions involved in the main body systems.
- Define the common terms used to describe pain.
- Describe the various types of diagnostic tests and procedures that can help the practitioner in making a diagnosis and deciding on proper treatment.

Instructor:

Yadira Willimann, MD

Yadira Willimann, MD, holds a medical degree from the University of Veracruz in Mexico where she worked as an emergency and outpatient care physician in a hospital for the underprivileged, and gained ample experience as a family physician at the Mexican Social Healthcare Institute (IMSS). Dr. Willimann holds a Bridging the Gap certificate and has trained more than 250 interpreters, students, health care providers, social workers and other members of the community through the Glades Initiative, Inc.'s Medical Interpreter Training Connecting Worlds.

This session offers an introduction to the fundamental aspects of biomedicine, with focus on key concepts and common problems encountered in medical practice. The students will acquire the essential knowledge of the basic components of medical terminology. The individual organ systems and their diseases are considered in a systematic manner, with emphasis on the more common and important diseases. Basic anatomy (structure), physiology (function), pathology (diseases), and principles of diagnosis and treatment are discussed. Newer diagnostic procedures and methods of treatment are emphasized. In this way, the session establishes a supporting knowledge that can encourage more independent and active learning. This is an interactive class. During the session's activities, the class will be divided into groups to work together and discuss observations.

Hampton Inn and Suites of Boynton Beach are able to give the IMIA 12 rooms at a discounted rate of \$79.00 a night. Those who are interested in staying at the property will have to call the property and make their reservation with the front desk and ask for IMIA group discount the number 561-369-0018 - <http://hamptoninn.hilton.com/en/hp/hotels/index.jhtml?ctyhocn=BOYBHHX>
