

Have you visited the IMIA ITRD Database?

Are you looking for medical interpreting terminology resources?

Do you wish that you could find the information that you're searching for in one place?

You do...

The **IMIA Terminology Resource Database** includes glossaries, dictionaries, terminology databases, anatomy atlases nomenclatures, thesauri, lexicons, vocabularies, manuals, encyclopedias and other word-based documents in the fields of medicine and healthcare in the various languages used by IMIA interpreters. The material referenced include books (hardcopy), CDs, web pages and video.

Please join the IMIA to become part of this project! We are currently recruiting members to help with the ITRD and related projects. If you would like to take part in this exciting project, and you work in Arabic, Cantonese, Korean, Portuguese, Hindi, Italian, and Swahili contact: Yuka Terminology Committee Chair, info@imiaweb.org
